LinkedIn GitHub Portfolio

Technical Skills

Frontend: HTML5, CSS3, SASS, Tailwind CSS, Bootstrap, JavaScript, TypeScript, React.js, Next.js
Backend: Python, Node.js, Django, Express.js, RESTful APIs
Database: PostgreSQL, MySQL
Deployment & Cloud: AWS EC2, AWS S3, AWS Route 53 (DNS), Render, Vercel, Netlify

Work Experience

Junior Python Developer Redchillies.vfx   Nov 2024 - Present

1. Developing and maintaining scalable web applications in collaboration with cross-functional teams.
2. Working across the full stack to deliver high-performance, user-centric solutions.
3. Integrating APIs and optimizing frontend performance for seamless user experience.

Full Stack Developer ALTISSADVANCE TECH PVT LTD   Aug 2022 - Nov 2024

1. Led end-to-end development of web applications using modern frontend and backend technologies.
2. Managed backend integrations, third-party APIs, and database structures.
3. Deployed and maintained production-ready apps on cloud platforms.

Frontend Developer ALTISSADVANCE TECH PVT LTD   Apr 2022 - Aug 2022

1. Built responsive, user-friendly interfaces using React and modern CSS frameworks.
2. Collaborated closely with UI/UX designers to implement pixel-perfect designs.
3. Improved code maintainability and performance by refactoring legacy components.

Personal Projects

Personal Portfolio Project Link

Built an AI-powered chatbot integrated into my portfolio website to engage visitors and answer career-related questions in real-time.

Parsed and used PDF resume and LinkedIn profile data to generate context-aware responses.

Simulated OpenAI-style function calls to capture user interest, unknown questions, and trigger email notifications using Django backend.

Designed a custom system prompt to maintain character and guide conversations like a personal assistant.
Technologies: React.js, Django, Django REST Framework, OpenAI API, pypdf, SMTP Email, Python

MadHouse Media Project Link

Developed a full-stack web app to manage brand campaigns and influencer executions with real-time tracking.

Implemented slab-based payments, GST/TDS calculations, and invoice handling for both brands and creators.

Built an admin dashboard for performance insights and financial reporting.

Enabled role-based access, soft deletion, and historical tracking for secure, auditable operations.
Technologies: React.js, Django, Django REST Framework, PostgreSQL, JWT Auth, Python
